

Help Ensure **HIPAA**  
**COMPLIANCE**  
With **goSOLUTIONS**

As an industry-leading provider of student services and Medicaid billing software, Go Solutions is committed to ensuring data integrity and student privacy. Our award-winning GoClaim™ software is compliant with all HIPAA security and electronic transmission specifications. Your district staff and parents can rest assured that Go Solutions software is the right choice for you with end-to-end data encryption, highly trained staff, continuous code reviews, and constant system enhancements.

### Privacy

GoClaim™ is compliant with all administrative simplification requirements of HIPAA with respect to Privacy.

### Security

Go Solutions' IT team is committed to and responsible for assessing any safety risks or security threats that could affect your district or students.

### Student Information

No student data, or protected health information, is stored on Go Solutions employee workstations.

### HIPAA 5010

Go Solutions conforms to all aspects of HIPAA X12 version 5010.

### HIPAA Trained Employees

Employees are required to complete a yearly HIPAA training to keep up to date on HIPAA standards.

### Limiting Involvement

GoClaim system users have access to the minimum necessary student information needed to complete their job as required by the Privacy Rule.

### Data Storage

All data is centrally located and maintained in secure facilities with FM200 fire suppression equipment, biometric data center security, and redundant backup power supplies in Lansing, Michigan.
