SPECIAL EDUCATION & MEDICAID SOFTWARE + SERVICES = ONE TOTAL SOLUTION

WHO WE ARE:
From intervention to reimbursement and everything in-between, Go Solutions offers an all-in-one, total solution for your Special Education and Medicaid Reimbursement needs.

WHY CHOOSE US:
Working with Go Solutions ensures that you have the most knowledgeable and helpful IEP software and Medicaid billing partners by your side. Our passion for assisting schools and the communities they serve is represented in our staff and the products they support. With Go Solutions, you aren't limited to working with one individual; an entire team is available to assist you. Our consistent attention to your district helps support the work necessary to maximize your participation in this program.

HOW YOUR SCHOOL DISTRICT BENEFITS:
Our user-friendly IEP software is specifically designed to save staff time when writing IEPs, and our built-in compliance checks ensure documents are filled out properly and on time. The information from the IEP flows directly into our integrated Medicaid reimbursement module to save time and reduce errors caused by duplicate data entry. Additionally, we maximize your Medicaid reimbursement; our specifically-designed fee structure is not only based on federal government best practices, but it allows you to recover up to 50% of your costs, according to state guidelines.

GOCLAIM™

GoClaim™, the company's award-winning special education and related service documentation software, streamlines the Medicaid reimbursement process, delivers real-time special education staff utilization data, and helps school districts make faster and better-informed decisions. It requires no internal IT investment on the part of your school district, yet it stores and manages your data, is HIPAA compliant, and offers 24/7 support!

FEATURES:

FERPA- and HIPAA-compliant

Automated student file uploads

Electronic supervisory documentation

Provider utilization tracking

Intuitive calendar service entry

Medicaid eligibility checks and maintenance of student eligibility information

Audit support

Customizable quick-notes tokens

Group entry

Parental consent tracking and digital signatures

Referral and prescription tracking

Transportation capture and Routing import

Administrative dashboard and database overview

Enhanced service delivery notes

System audit trail

Ability to create progress notes

Ability to set defaults for student service time and ICD-10 code

"

OUR OVERALL EXPERIENCE WORKING WITH GO SOLUTIONS HAS BEEN EXCELLENT AND I WOULD ATTRIBUTE THAT

ALL TO THEIR STAFF!

Dr. Melissa McCusker, Director of Student Support Services at Deer Valley School District

GOIDEA™

GoIDEA™ (formerly known as OASYS) is a customizable Special Education software solution that caters to your school districts needs. The core module, GoIDEA, is designed specifically for web-based Special Education IEPs. It increases staff productivity by automating the IEP process with time-saving tools and techniques, working seamlessly with your Student Information System to make sure that your documents are created with accurate and current information.

GOIDEA ADD-ON MODULES

RTI / PBIS / MTSS - Manage, track, and report on student interventions—both behavioral and academic. Identify students needing intervention, access flexible reports and customizable forms, monitor student progress and more!

Digital Signatures - Send documents to parents and guardians so they can electronically sign on a smart phone or any other device, simply using their finger.

English Learner Management System (EL) - Track English learners' ACCESS scores so you can easily compare yearly results. It includes a comprehensive Individualized Learning Plan (ILP) form to cover goals and scores for the student.

State Reporting - Automatically send Special Education child count data on behalf of school districts right from GoIDEA, eliminating the need for double entry.

Section 504 Management System -Easily track and maintain all data for district students who use a 504 plan. The module includes accommodation plans, customizable forms, and reports all in one easy-to-use system.

Progress Monitoring - Capture evidence that enables your IEP team to determine whether the student has achieved his or her goals. This includes a customizable graphing tool, reports for guardians, automatic transfer of goals and objectives from linking form and much more.

Service Matrix - Calculate weighted caseloads with the GoIDEA Service Matrix. The Service Matrix reports allow you to view the total number of staff that needs to be allocated to a specific caseload. This add-on feature will help your district determine where staff are needed for the upcoming school year as students move from building to building.

SUCCESS THROUGH NUMBERS

260
Districts are already optimizing their Medicaid reimbursements with Go Solutions

99
Districts are saving staff time and streamlining their IEP process with GoIDEA

Here's how others are doing:

DISTRICT	PAID AMOUNT (5 YEARS)
PEORIA	$4,786,830
